JOURNAL OF

Pharmaceutical Sciences

A publication of the American Pharmaceutical Association

Published monthly under the supervision of the Committee on Publications with the approval of the Council

Editor
EDWARD G. FELDMANN

Assistant Editor
SAMUEL W. GOLDSTEIN

Editorial Assistant
YVETTE W. GORDON

Committee on Publications

LINWOOD F. TICE,
chairman
WILLIAM S. APPLE
GROVER C. BOWLES
HENRY M. BURLAGE
HUGO H. SCHAEFER

Editorial Advisory Board

J. H. BURCKHALTER
TROY C. DANIELS
GEORGE P. HAGER
W. W. HILTY
THOMAS J. MACEK
VARRO E. TYLER, Jr.

INDEX TO VOLUME 50

INDEX TO AUTHORS
INDEX TO SUBJECTS

JANUARY TO DECEMBER, 1961

AUTHOR INDEX

A

Abrams, J., *see* Eriksen, S. P., 151
Aceto, M. D. G., Lynch, V. D., and Thoms, R. K., effects of drugs on conditioning in the rat II. Synthesis of a centrally active drug and the effects of nine drugs on operant conditioning and extinction, 823
——*see* Buckley, J. P., 255
Ahsan, S. S., *see* Blaug, S. M., 138, 441
Alexander, T. G., and Banes, D., analysis of the alkaloid content of ergot, 201
Ambye, E. L., *see* Vinson, L. J., 827
Andrade, S. O., *see* de Oliveira, M. M., 780
Andrako, J., Smith, J. D., and Hartung, W. H., substituted acetamidomalonic esters and DL-2-acetamido acids as antitumor agents, 337
——*see* Hartung, W. H., 805
Artz, W. J., Gloor, W. T., Jr., and Reese, D. R., study of various methods for detecting leaks in hermetically sealed ampuls, 258
Asbun, W. L., *see* Kupchan, S. M., 819
Auerbach, M. E., *see* Kelly, C. A., 490
Ayres, C. L., *see* Kupchan, S. M., 52, 396

B

Bach-y-Rita, P., *see* Haley, T. J., 710
Bahal, S. M., Baichwal, M. R., and Khorana, M. L., studies of quinoline derivatives as anti-infective agents I, 127
——and Khorana, M. L., studies on quinoline derivatives as anti-infective agents II, 131
Baichwal, M. R., *see* Bahal, S. M., 127
Banes, D., *see* Alexander, T. G., 201
——*see* Carol, J., 550
Banker, G. S., *see* Patel, K. C., 294, 300
——*see* Simon, T. H., 880
Barnes, A. J. Jr., *see* Svoboda, G. H., 409
Barringer, W. C., *see* Sieger, G. M., 869
Barua, A. K., Maiti, P. C., and Chakraborti, S. K., triterpenoids XI. New triterpenoid sapogenins from the fruits of *Barringtonia acutangula*, 937
Beekman, S. M., preparation and properties of new gastric antacids III. Aluminum hydroxide-glycine, 571; preparation and properties of new gastric antacids IV. Aluminum hydroxide-magnesium trisilicate, 577
Bennett, A. G., *see* Vinson, L. J., 827
Benslay, D. S., and McCutcheon, R. S., some cardiovascular effects of trimethobenzamide, 760
Bhatia, V. N., *see* Nazareth, M. R., 560, 564
——*see* Robbers, J. E., 708
Bickerton, R. K., *see* Buckley, J. P., 255
Biles, J. A., optical crystallographic properties of some glucocorticoids, 464
——*see* Divatia, G. J., 916
Bjaastad, S. G., and Hall, N. A., effects of ethylenediaminetetraacetic acid (EDTA) on prothrombin consumption, 878
Blackwood, R. H., *see* Goyan, F. M., 773
Blake, M. I., Crespi, H. L., Mohan, V., and Katz, J. J., isolation of fully deuterated metabolites from *Scenedesmus obliquus* grown in deuterium oxide, 425
Blaug, S. M., and Ahsan, S. S., interaction of parabens with nonionic macromolecules, 441
——and Ahsan, S. S., interaction of sorbic acid with nonionic macromolecules, 138
Blissitt, C. W., Tinker, R. B., and Husa, W. J., comparison of the antibacterial activity of erythromycin in various suppository bases, 56
Bose, B. C., Saiñ, A. Q., Vijayvargiya, R., and Sharma, S. K., some aspects of phytochemical and pharmacological study of *Saussurea lappa*, 679
Braun, H. A., Lusky, L. M., and Sensek, S. E., single-injection method for the assay of digitalis in pigeons, 469
Breckinridge, C. E., Jr., and Christian, J. E., study of inverse isotope dilution analyses of chlortetracycline, 777
Brewer, J. H., and McLaughlin, C. B., dehydrated sterilizer controls containing bacterial spores and culture media, 171
Brockmann-Hanssen, E., and Svendsen, A. B., gas chromatography of barbiturates and related compounds, 804
——*see* Jabbar, A., 406
——*see* Kaul, P. N., 244, 248, 266, 840
Brown, L. W., and Krupski, E., polarography of iodochlorhydroxyquin and diiodohydroxyquin, 49
Brudney, N., use of ion exchange resins in the adsorption and elution of association colloids, 83
Bruening, C. F., and Kline, O. L., rapid determination of the relative purity of vitamin B_{12} (cyanocobalamin) in pharmaceutical products, 537
Buckley, J. P., pharmacology of antihypertensive compounds, 539
——Kinnard, W. J., Aceto, M. D. G., and Bickerton, R. K., hypertensive properties of 4-methyl-2-amino-pyridine, 255
——*see* Furgiuele, A. R., 252
——*see* Hudak, W. J., 263
Buehrer, T. F., *see* McCaughey, W. F., 658
Burkman, A. M., antagonism of apomorphine by chlorinated phenothiazines, 156
——relative potencies of some phenothiazines as pecking syndrome inhibitors, 771
Burlage, H. M., *see* Kochhar, M. M., 586
Butler, A. Q., U.S.P. XVI monographs for radiopharmaceuticals, 1049

C

Cahn, A., *see* Lemaire, H., 831
Calesnick, B., and Milligan, D., physicochemical and pharmacological properties of beef muscle hydrolysate, 268
Callahan, F. M., *see* Sieger, G. M., 869
Campbell, J. A., *see* McLaughlan, J. M., 59
——*see* Pelletier, O., 208, 926
Carew, D. P., effects of gibberellic acid on *Nicotiana rustica* var. *Brasilia* plants, 1045
Carol, J., application of infrared spectrophotometry to pharmaceutical analysis, 451
——Kunze, F. M., Banes, D., and Graham, J. H., analysis of conjugated estrogen preparations, 550
Catalfomo, P., and Tyler, V. E., Jr., investigation of the free amino acids and amanita toxins in *Amanita* species, 689
Chakraborti, S. K., *see* Barua, A. K., 937
Chatten, L. G., *see* Clair, E. G., 848
——*see* Moskalyk, R. E., 179, 651
Chaubal, M. G., *see* Tsao, D. P. N., 801
Cheney, L. C., *see* Luts, H. A., 328
Chiang, H. C., nonaqueous titration of chlorothiazide-type diuretics, 885
Chiaramonte, J. S., *see* Maruzzella, J. C., 665
Childress, S. J., *see* Russell, P. B., 713
Chodos, E., *see* Shapiro, S. L., 1035
Chorney, W., *see* Reitsema, R. H., 18
Christian, J. E., radioisotopes in the pharmaceutical sciences and industry, 1
——*see* Breckinridge, C. E., Jr., 777
——*see* Pernarowski, M., 943, 946
——*see* Vacik, J. P., 225
——*see* Zalien, H., 783
Chun, A. H. C., and Martin, A. N., measurement of hydrophile-lipophile balance of surface-active agents, 732

SUBJECT INDEX

A

Absorbancy ratios, application of, to the analysis of pharmaceuticals I. Theory of the analysis of binary mixtures, 943; II. Practical aspects of the analysis of binary mixtures, 946; III. Simultaneous analysis of aminophylline and phenobarbital, 953

Absorption aspects of biopharmaceutics, 359
- and dissolution rates of different commercial aspirin tablets, comparison of, 388
- drug, urinary excretion kinetics for evaluation of, IV. Studies with tetracycline absorption enhancement factors, 413
- percutaneous, investigation of some factors influencing, 288
- testing, and clinical evaluation of oral prolonged-action drugs, 715

Acacia, determination of the hydrophile-lipophile balance of, using various surfactants, 238

DL-2-Acetamido acids and substituted acetamidomalonic esters as antitumor agents, 337

Acetamidomalonic esters, substituted, and DL-2-acetamido acids as antitumor agents, 337

(*p*-Acetamidophenoxy) acetic acid derivatives. Hypocholesteremic agents I, 973

N-Acetyl-*p*-aminophenol, stability of aqueous solutions of, 113

Acetylation and excretion of sulfathiazole or other sulfonamides and the occurrence of crystalluria, relationship between the kinetics of, 912

Acetylcholine, improved bioassay for, 438

Acetylsalicylic acid and tablets, analysis of, 506

Acorus oil *in vitro,* effect of, on the respiration of rat brain, 580

Air-suspension coating technique, genesis of uncoats by, 168

Alb[illegible] *tinctoriissima* seeds, Mahar[illegible]id sapogenins isolated [illegible]us and sapogenins VII, 923

Alfalfa extracts which stimulate growth of *Neurospora sitophila* I. Preparation and activation of crude extracts, 737; II. Isolation, characterization, and multiple nature of stimulatory compounds, 739; III. Effect on weight gain of thyroid-stressed albino rats, 744

Alkaloid content of ergot, analysis of, 201
- synthesis and growth in *Datura stramonium,* influence of various concentrations of nutrients on, 676

Alkaloidal reagents, tests of amino acids with, 976

Alkaloids, assay of, in nonaqueous solution, 265
- color reaction of, with dichromate-sulfuric acid and its use for quantitative assay, 901
- *Cyclea peltata.* Menispermaceae alkaloids II, 164
- ergot, biogenesis of the clavine-type, 681
- ergot, biosynthesis of, 629
- ester, hypotensive veratrum, 273
- interaction of carrageenan and other hydrocolloids with. I. Precipitation studies, 483
- menispermaceae. II. Alkaloids of *Cyclea peltata,* 164; III. Alkaloids of *Stephania hernandifolia,* 819
- *Rauwolfia nitida* leaf, 1038
- related argemone, structural studies on, 321
- *Stephania hernandifolia.* Menispermaceae alkaloids III, 819
- veratrum, XLVI. Structure-activity relationships in a series of analogs of the protoveratrines, 396
- *Vinca rosea* VIII. Preparation and characterization of new minor alkaloids, 409

Alkyl 2-bromoallyl barbituric acids, pharmacologic study of, 747

Alkyl (b) *dl*-α-(2-piperidyl)-phenylacetates, relative hydrolytic rates of, 494

Aluminum hydroxide-glycine. Preparation and properties of new gastric antacids III, 571

Aluminum hydroxide-magnesium trisilicate. Preparation and properties of new gastric antacids IV, 577

Amine salts, physical chemical study of the distribution of some, between immiscible solvents, 916

Aminita species, investigation of free amino acids and amanita toxins in, 689
- toxins and free amino acids in *Amanita* species, investigation of, 689

Amino acids, free, and amanita toxins in *Amanita* species, investigation of, 689
- in opium, 406
- tests of, with alkaloidal reagents, 976

4-Aminoantipyrine, colorimetric determination of phenylephrine using, 393

Aminophylline and phenobarbital, simultaneous analysis of. Application of absorbancy ratios to the analysis of pharmaceuticals III, 953

5-Aminosaccharin and related compounds, synthesis of. Saccharin derivatives V, 625

Amperometric and potentiometric titrations of phenobarbital elixir with mercury (II), evaluation of, 661

Ampuls, hermetically sealed, study of various methods for detecting leaks in, 258

Analysis of pharmaceuticals, application of absorbancy ratios to, I. Theory of the analysis of binary mixtures, 943; II. Practical aspects of the analysis of binary mixtures, 946; III. Simultaneous analysis of aminophylline and phenobarbital, 953

Anesthetic activity of substituted basic acetanilides, influence of the lateral side chain on. Studies on local anesthetics XXVI, 161

Anesthetics, local III. Dialkylaminoalkoxyphenylethanol esters, 769
- local, studies on, XXVI. Influence of the lateral side chain on the anesthetic activity of substituted basic acetanilides, 161

Anionic and cationic surfactants, study of, in a hydrophilic ointment base I. The screening program, 294; II. The effect of the surfactant and its concentration on medicament release, 300

Antagonism of apomorphine by chlorinated phenothiazines, 156

Antibacterial activity of erythromycin in various suppository bases, comparison of, 56
- activity of toilet soap and detergent bars, *in vitro* tests for measuring, 827

Antibiotic properties of *Sargassum natans* from Puerto Rico, 356

Antifungal activity of some amides of dichloroacetaldehyde and bromal, 42

Antihistamines in pharmaceutical products, determination of, by nonaqueous titration, 848

Antihypertensive compounds, pharmacology of, 539

Anti-infective agents, studies on quinoline derivatives as, I, 127; II, 131

Antioxidants, pharmaceutical, sulfurous acid salts as, 891

Antiseborrheic dermatitis preparations, comparative laboratory evaluation of, 480

Antitumor agents, substituted acetamidomalonic esters and DL-2-acetamido acids as, 337

Antitussive drugs, experimental investigation of nine, 216

APC tablets, stability of aspirin in, 620

Apomorphine, antagonism of, by chlorinated phenothiazines, 156
- auto-oxidation of, 266
- biological disposition of, II. Urinary excretion and organ distribution of apomorphine, 244; III. Kinetics of metabolism of apomorphine and role of the liver in its biotransformation, 248; IV. Isolation and characterization of "bound" apomorphine, 840
- kinetics of metabolism of, and role of the liver in its biotransformation. Biological disposition of apomorphine III, 248
- urinary excretion and organ distribution of. Biological disposition of apomorphine II, 244

Arabogalactan, larch, studies on I, 560; II, 564

Argemone alkaloids, related, structural studies on, 321

Arizona, southern, essential oil plants of, 658

Aromatic chemicals, effects of vapors of, on fungi, 665

Aspirin, stability of, in APC tablets, 620
- tablets, different commercial, comparison of dissolution and absorption rates of, 388
- tablets, effect of calcium succinate and carbonate on the stability of, 608

Ataraxic agents, effects of certain, on mice activity, 910

Auto-oxidation of apomorphine, 266

Azlactone derivatives, pharmacological studies on some, 602

B

Baptisia leucantha, occurrence of *d*-sparteine in, 627

Barbiturates and related compounds, gas chromatography of, 804

Barbituric acids, alkyl 2-bromoallyl, pharmacologic study of, 747

Beef muscle hydrolysate, physicochemical and pharmacological properties of, 268

Bentonite, acid activated, cationic exchange properties of, I. Effect of structure variation, pH, and ionic strength on the exchange rates of a series of β-phenylethylamines, 929

Benzomorphan analgesic (phenazocine hydrobromide), pharmaceutical aspects of, 792

Biguanides chelation of, with copper ion, 641

Binary mixtures, practical aspects of the analysis of. Application of absorbancy ratios to the analysis of pharmaceuticals II, 946
- mixtures, theory of the analysis of. Application of absorbancy ratios to the analysis of pharmaceuticals I, 943

Bioassay for acetylcholine, improved, 438

Bioflavonoids in experimental ulceration, 14

Biogenesis of the clavine-type ergot alkaloids, 681

Biological activities of drugs, role of metal-binding in, 93
- disposition of apomorphine IV. Isolation and characterization of "bound" apomorphine, 840
- potency and physiochemical relations for isomerized vitamin A palmitate, 510

Biopharmaceutics: absorption aspects, 359

Biosynthesis of the ergot alkaloids, 629

Bishydroxycoumarin, crystallography of, 1045

Bithionol in liquid soap, assay for, 272

Blood and bone marrow, actions of estrogens on, 436

Bone marrow and blood, actions of estrogens on, 436

and paregoric, spectrophotometric assay of, 837
Optical crystallographic properties of some glucocorticoids, 464
Oral prolonged-action drugs, absorption, testing, and clinical evaluation of, 715
sustained release dosage form of trimeprazine, evaluation of, as measured by urinary excretion, 213
Organic substances in aqueous solution, complexation of, by hydroxyaromatic acids and their salts. Relative contributions of several factors to the overall effect, 905

P

Pan coating process for small batches of tablets, 174
Panthenol in multivitamin preparations, sensitive colorimetric method for the determination of, 845
Paper chromatography and electrophoresis, application of, to the assay of pharmaceutical products, 332
Papers, test. Study of the polyvinyl alcohol-borate-iodine complex II, 198
Parabens in pharmaceutical formulations, potentiation of, by low concentrations of propylene glycol, 316
with nonionic macromolecules, interaction of, 441
Paregoric and opium, spectrophotometric assay of, 837
Pecking syndrome inhibitors, relative potencies of some phenothiazines as, 771
Perchloric acid titrations with a commercially available electrode, 583
Percutaneous absorption, investigation of some factors influencing, 288
Permeability of excised human keratin to liquid-soluble substances, 588
Pfizer tablet hardness tester, 966
pH, relation of, to preservative effectiveness I. Acid media, 743
Pharmaceutical analysis, application of infrared spectrophotometry to, 451
analysis, investigation of the applicability of solid state fluorescence to, 1041
antioxidants, sulfurous acid salts as, 891
preparations, differential spectrophotometric titration of vitamins and drugs in, 693
preparations intended for oral administration, determination of lipase activity in, 999
preparations, spectrophotometric assay for neomycins B and C in, 668
products, application of paper chromatography and electrophoresis to the assay of, 332
Pharmaceuticals, application of absorbancy ratios to the analysis of. I. Theory of the analysis of binary mixtures, 943; II, Practical aspects of the analysis of binary mixtures, 946; III, Simultaneous analysis of aminophylline and phenobarbital, 953
Pharmacologic study of alkyl 2-bromoallyl barbituric acids, 747
Pharmacological studies on some aziactone derivatives, 602; erratum, 890
Pharmacology of antihypertensive compounds, 539
of bunamiodyl I. Toxicity studies, 957
of 3,5-diphenyl-1,2,4-triazole, 597
and synthesis of several substituted indole-3-carboxamide derivatives, 976
Phase transitions, thermally induced, technique for studying, 177
Phenazocine hydrobromide: pharmaceutical aspects of a new benzomorphan analgesic related to morphine, 792
procedures for assay and stability determination of, in pharmaceutical preparations, 612
β-Phenethylbiguanide and other biguanides, chelation of, with copper ion, 641
Phenobarbital and aminophylline, simultaneous analysis of. Application of absorbancy ratios to the analysis of pharmaceuticals III, 953
elixir, evaluation of amperometric and potentiometric titrations of, with mercury (II), 661
Phenolsulfonamides, Mannich bases of: derivatives of N-(2-thiazolyl)-1-phenol-4-sulfonamide, 869
Phenothiazine derivatives, adsorption of, by kaolin, talc, and Norit, 355
Phenothiazines, relative potencies of some, as pecking syndrome inhibitors, 771
Phenylephrine, colorimetric determination of, using 4-aminoantipyrine, 593
new route to, 713
in pharmaceutical products, ion exchange separation and colorimetric determination of, 490
β-Phenylethylamines, effect of structure variation, pH, and ionic strength on the exchange rates of a series of Cationic exchange properties of acid activated bentonite I, 929
1-Phenyl-2-hydrazinopropane, investigation of the cardiovascular response of the dog to, 502
Phenylpropanolamine hydrochloride, evaluation of a sustained release form of, by urinary excretion studies, 232
Photosensitized killing, protection of yeast against, 221

Physical chemical approach to the formulation of pharmaceutical suspensions, 513
chemical study of the distribution of some amine salts between immiscible solvents, 916
Physicochemical and biological potency relations for isomerized vitamin A palmitate, 510
and pharmacological properties of beef muscle hydrolysate, 268
Physostigmine, effect of, on the egg-day survivals of chloramphenicol-treated embryonated chick eggs, 64
Phytochemical investigation of *Galium triflorum*, 963
Pilocarpine methiodide, crystalline, preparation of, 887
salts, quaternary, synthesis of some, 854
Piperazine salts in pharmaceutical liquids, determination of, 175
Plants, medicinal, influence of gibberellic acid on, 981
Plasmalogens, neutral, and polyhydric alcohols, synthesis of α,β-unsaturated ethers of, 978
Polanisia trachysperma, examination of the seeds of, 586
Polarographic determination of the rates of formation of ethyleneimonium ions of several nitrogen mustard compounds, 783
estimation of mercurial-protein binding, 704
Polarography of iodochlorhydroxyquin and diiodohydroxyquin, 49
Polyhydric alcohols and neutral plasmalogens, synthesis of α,β-unsaturated ethers of, 978
Polystyrene dispersions, iodinated, for reticuloendothelial system studies, 706
Polyvinyl alcohol-borate-iodine complex study of, II. Test papers, 198
Polyvinylpyridine derivatives. Studie on protective coating IX, 592
Poria obliqua, triterpenes of, 471
Potentiometric and amperometric titrations of phenobarbital elixir with mercury (II), evaluation of, 661
Powdered material, interfacial properties of, caking in liquid dispersions I. Caking and flocculation studies, 228; II. Electrokinetic phenomena, 753; III. Adsorption studies, 756
Preservative effectiveness, relation of pH to, I. Acid media, 743
Preservatives (parabens) in pharmaceutical formulations, potentiation of, by low concentrations of propylene glycol, 316
Processing, effects of, on the rheology of thixotropic suspensions, 880
Prolonged-action drugs, oral, absorption, testing, and clinical evaluation of, 715
Propylene glycol, potentiation of preservatives (parabens) in pharmaceutical formulations by low concentrations of, 316
Propylene glycol ethers of methylcellulose, dietary feeding of, to rats, 615
Protective coating, studies on, IX. Polyvinylpyridine derivatives, 592
ointments, preliminary studies on use of sensitized guinea pigs in the evaluation of, 970
Protein responses, C-reactive, application of, in the evaluation of acute drug toxicity, 444
Proteolytic activity of gastric juice, simplified *in vitro* method for evaluating the effects of drugs upon, 960
Prothrombin consumption, effects of ethylenediaminetetraacetic acid on, 878
Protoverine derivatives, structure-activity relationships in a series of, Veratrum alkaloids XLV, 52
Protoveratrines, analogs of, structure-activity relationships in a series of, Veratrum alkaloids XLVI, 396
Psychopharmacological compounds, evaluation of certain, 252
Pyridylalkyl biguanides, dicyandiamides, and guanylureas, 798
Pyridylalkyl dicyandiamides, biguanides, and guanylureas, 798
Pyridylalkyl guanylureas, dicyandiamides, and biguanides, 798

Q

Quaternary ammonium compounds, determination of 535
pilocarpine salts, synthesis of some, 854
Quinoline derivatives as anti-infective agents, studies on, I, 127; II, 131

R

Radioactive Cl^{36}-dichloromethotrexate, synthesis of, 353
drugs in U. S. Pharmacopeia, 88
Radioisotopes in the pharmaceutical sciences and industry, I
Radio pharmaceuticals, U.S.P. XVI monographs for, 1049
Rate of release of medicaments from ointment bases containing drugs in suspension, 874; erratum, 1047
Rates, approximate, of shear encountered in some pharmaceutical processes, 788
of formation of ethyleneimonium ions, polarographic determination of, of several nitrogen mustard compounds, 783
Rauwolfia nitida, leaf alkaloids of, 1038
Release, drug, from solids, investigation of, IV. Influence of adsorption on the dissolution rate, 403
of medicaments, rate of, from ointment bases containing drugs in suspension, 874
Reticuloendothelial system studies, iodinated polystyrene dispersions for, 706
Rheology of thixotropic suspensions, effects of processing on, 880
Rheometer, simple, for definition of viscoelastic properties of structural liquids, 785

S

Saccharin derivatives IV. Synthesis of 2-(diethylcarbamoyl)- and 2-(diethylthiocarbamoyl)saccharin, and related compounds, 672; V. Synthesis of 5-aminosaccharin and related compounds, 625
Salicylanilides, halogenated, and related compounds, synthesis and germicidal activity of, 831
Salvia officinalis, incorporation of 2-C^{14}-sodium acetate into sterol and pentacyclic triterpenes, 623
and *Ocimum basilicum*, determination of sterol and triterpene content of, at various stages of growth, 645
Salvia sclarea, isolation of a β-sitosterol complex from, 504
Sapogenins, acid, isolated from Maharashtrian *Albizzia odoratissima* seeds, Saponins and sapogenins VII, 923
new triterpenoid, from the fruits of *Barringtonia acutangula*. Triterpenoids XI, 937
and saponins VII. Acid sapogenins isolated from Maharashtrian *Albizzia odoratissima* seeds, 923
steroidal, and other constituents, survey of plants for, 1001
Saponin and oil. Studies of *Luffa echinata* III, 687
and oleanolic acid, isolation of, from trefoil (*Lotus corniculatus*, var. *tenuifolium*), 173
toxic, from *Elvira biflora*, 780
Saponins and sapogenins VII. Acid sapogenins isolated from Maharashtrian *Albizzia odoratissima* seeds, 923
Sargassum natans from Puerto Rico, antibiotic properties of, 356
Saussurea lappa, some aspects of phytochemical and pharmacological study of, 679
Scenedesmus obliquus grown in deuterium oxide, isolation of fully deuterated metabolites from, 425
Self-stimulation by rats, construction and implantation of a new type electrode for, 710
Shear rates, approximate, encountered in some pharmaceutical processes, 788
Single-injection method for the assay of digitalis in pigeons, 469
β-**Sitosterol** complex from *Salvia sclarea*, isolation of, 504
Soap, liquid, assay for bithionol in, 272
2-C^{14}-Sodium acetate, incorporation of, into sterol and pentacyclic triterpenes of *Salvia officinalis*, 623
Solid-liquid suspensions, mixing of, 523
Solid state fluorescence, investigation of the applicability of, to pharmaceutical analysis, 1041
Solids, investigation of drug release from, IV. Influence of adsorption on the dissolution rate, 403
Solubilization of anti-inflammatory steroids by aqueous solutions of Triton WR-1339, 305
Solutions, aqueous, of certain hydrophilic polymers, viscosity-stability of, 429
Sorbic acid with nonionic macromolecules, interaction of, 138
d-**Sparteine,** occurrence of, in *Baptisia leucantha*, 627
Spectrophotometric assay for neomycins B and C in pharmaceutical preparations, 668
assay of opium and paregoric, 837
titration, differential, of vitamins and drugs in pharmaceutical preparations, 693
Spectrophotometry, infrared, application of, to pharmaceutical analysis, 451
Spray-drying of tablet granulations I. A preliminary report, 76
Stability of aqueous solutions of N-acetyl-β-aminophenol, 113
of aspirin in APC tablets, 620
of aspirin tablets, effect of calcium succinate and carbonate on, 608
of morphine in aqueous solution II. Separation of morphine from its degradation products, 30; III, Kinetics of morphine degradation in aqueous solution, 35
studies of dihydrostreptomycin ointments, 148
Stephania hernandifolia, alkaloids of, Menispermaceae alkaloids III, 819
Stereochemistry, 805
Sterility test for oils, use of tyloxapol as an emulsifier in, 703
Sterilizer controls, dehydrated, containing bacterial spores and culture media, 171
Steroid borates I. Structural considerations, 193; II, Process applications, 606; III, Use in preparation of triamcinolone 21-hemisuccinate and other 21-monoesters, 856
hormones, some tetrahydropyranyl ether derivatives of, 86
Steroidal sapogenins and other constituents, survey of plants for, 1001
Steroids, anti-inflammatory, solubilization of, by aqueous solutions of Triton WR-1339, 305
VI. Thiazoloandrostanes, 271; VIII, 3,6 - Diaza - A,B - bishomo - 5α-cholestane-4,7-dione, 628
Sterol and triterpene content of *Ocimum basilicum* and *Salvia officinalis*, determination of, at various stages of growth, 645
Streptococcal nephritis, experimental, treatment of, I. A preliminary report, 308
Stress, experimental, production of hypertensive rats by, 263
Structural liquids, simple rheometer for definition of viscoelastic properties of, 785
Structure-activity relationships in a series of protoverine derivatives. Veratrum alkaloids XLV, 52
relationships in a series of analogs of the protoveratrines. Veratrum alkaloids XLVI, 396
N-Substituted methanedisulfonamides and N'-substituted methanedisulfonylureas, synthesis of, 842
N'-Substituted methanedisulfonylureas and N-substituted methanedisulfonamides, synthesis of, 842
3 - Substituted 1,2,3,4 - tetrahydroquinazoline-2-thiones and their intermediates, preparation of some, Cyclized substituted thioureas I, 866
1-(Substituted triazinylmethyl)-1,1-dimethylhydrazinium chlorides. Guanamines IX, 446
Sulfamethylthiadiazole acetylation and excretion in humans, kinetics of, 417
Sulfathiazole or other sulfonamides and the occurrence of crystalluria,

relationship between the kinetics of the acetylation and excretion of, 912
Sulfide derivatives of cysteine, 312
Sulfonamides and the occurrence of crystalluria, relationship between the kinetics of the acetylation and excretion of, 912
Sulfurous acid salts as pharmaceutical antioxidants, 891
Suppository base, substitute for cocoa butter as, in tropical countries, 21 bases, various, comparison of the antibacterial activity of erythromycin in, 56
Surface-active agents, measurement of hydrophile-lipophile balance of, 732
Surfactant and its concentration, effect of, on medicament release. Study of anionic and cationic surfactants in a hydrophilic ointment base II, 300
Surfactants, anionic and cationic, study of, in a hydrophilic ointment base I. The screening program, 294
Survey of plants for steroidal sapogenins and other constituents, 1001
Suspension formulation, an industrial approach to, 517
Suspensions, mixing of solid-liquid, 523
pharmaceutical, performance and problems of, 531
pharmaceutical, physical chemical approach to the formulation of, 513
Sustained-release dosage forms, absorption of tritiated *d*-desoxyephedrine in, 134
dosage form of trimeprazine, evaluation of oral, as measured by urinary excretion, 213
form of phenylpropanolamine hydrochloride, evaluation of, by urinary excretion studies, 232
Synthesis and germicidal activity of halogenated salicylanilides and related compounds, 831
and pharmacology of several substituted indole-3-carboxamide derivatives, 976
of some quaternary pilocarpine salts, 854
of N-substituted methanedisulfonamides and N'-substituted methanesulfonylureas, 842
of α,β-unsaturated ethers of polyhydric alcohols and neutral plasmalogens, 978

T

Tablet coating, magnetic iron oxide for use in, 1047
formulations, color stability of, III. Comparative light fastness of several water-soluble dyes and their corresponding lakes, 141; IV. Protective influence of colored glasses on the fading of tablets, 145
fracture resistance, new instrument and method for evaluating, 343
granulations, drying of, 67
granulations, spray-drying of, I. A preliminary report, 76
hardness tester, Pfizer, 966
Tableting of a chemical with variable color characteristics, 803
Tablets, acetylsalicylic acid, analysis of, 506
compressed, uniformity of drug dosage in, 651
process for pan coating small batches of, 174
Testing of oral prolonged-action drugs, 715
Tests of amino acids with alkaloidal reagents, 976
Tetracycline absorption enhancement factors, studies with. Urinary excretion kinetics for evaluation of drug absorption IV, 413
Tetrahydropyranyl ether derivatives of steroid hormones, 86
Tetrahymena pyriformis, effects of iproniazid on, 421
Tetramine toxicity, reduction of, by sedatives and anticonvulsants, 858
Thermal titrations, incremental, 773
Thermally induced phase transitions, technique for studying, 177
Thiazoloandrostanes. Steroids VI, 271
N - (2 - Thiazolyl) - 1 - phenol - 4-sulfonamide, derivatives of: Mannich bases of phenolsulfonamides, 869
Thixotropic suspensions, effects of processing on the rheology of, 880
Toilet soap and deteryent bars, *in vitro* tests for measuring antibacterial activity of, 827
Toxicity, acute drug, application of C-reactive protein responses in the evaluation of, 444
Transaminase activity in three strains of ergot, comparison of, 940
Trefoil (*Lotus corniculatus*, var. *viking*), isolation of oleanolic acid and saponin from, 173
Triamcinolone 21-hemisuccinate and other 21-monoesters, use in preparation of. Steroid borates III, 856
N - (2,3,3 - Trichloro - 1 - hydroxypropyl)-amides, synthesis and pharmacological activities of some, 448
5-Trifluoromethyl hydantoins, 800
Trimeprazine, evaluation of an oral sustained release dosage form of, as measured by urinary excretion, 213
Trimethobenzamide, cardiovascular effects of, 760
Triterpene and sterol content of *Ocimum basilicum* and *Salvia officinalis*, determination of, at various stages of growth, 645
Triterpenes of *Poria obliqua*, 471
Triterpenoid sapogenins, new, from the fruits of *Barringtonia acutangula*. Triterpenoids XI, 937
Triterpenoids XI. New triterpenoid sapogenins from the fruits of *Barringtonia acutangula*, 937
Tritiated *d*-desoxyephedrine, absorption of, in sustained-release dosage forms, 134
Triton WR-1339, aqueous solutions of, solubilization of anti-inflammatory steroids by, 305
Tropinone and 1-methyl-4-piperidone, ketals and hemithioketals of, 475
Tyloxapol, use of, as an emulsifier in a sterility test for oils, 703

U

Uniformity of drug dosage in compressed tablets, 651
Urinary excretion kinetics for evaluation of drug absorption IV. Studies with tetracycline absorption enhancement factors, 413
Urine pH, control of, and its effect on drug excretion in humans, 890
U.S.P. XVI monographs for radiopharmaceuticals, 1049
radioactive drugs in, 88

V

Valeriana officinalis extracts, pharmacological investigation of certain, 240
Vapors of aromatic chemicals, effects of, on fungi, 665
Veratrum alkaloids XLV. Structure-activity relationships in a series of protoverine derivatives, 52; XLVI. Structure-activity relationships in a series of analogs of the protoveratrines, 396
Veratrum ester alkaloids, hypotensive, 273
Vinca rosea, alkaloids of, VIII. Preparation and characterization of new minor alkaloids, 409
Viscoelastic properties of structural liquids, simple rheometer for definition of, 785
Viscosity-stability of aqueous solutions of certain hydrophilic polymers, 429
Vitamin A, determination of: criticism of Tardif's method, 449
determination of: rebuttal to Gridgeman criticism, 450
Vitamin A palmitate, isomerized, physicochemical and biological potency relations for, 510
Vitamin B_{12} (cyanocobalamin) in pharmaceutical products, rapid determination of the relative purity of, 537
Vitamin-drug interrelationships, some apparent, in *Lactobacillus leichmannii* and *Tetrahymena pyriformis*, 59
Vitamins and drugs in pharmaceutical preparations, differential spectrophotometric titration of, 693

W

Water-soluble dyes and their corresponding lakes, comparative light fastness of several. Color stability of tablet formulations III, 141
Withania somnifera leaves, chemical studies of, 876

Y

Yeast, protection of, against photosensitized killing, 221
